List of January 2024 module changes

Please note that while many module changes are reflected below, this list is not exhaustive.

The following changes have been made to the module:

- The module resources and supporting materials have been updated to reflect current dates and the related *CPA Canada Handbook* and *Income Tax Act* standards and rates that will be examinable on the 2024 examinations, aligned with the [technical update for the 2024 CPA PEP examinations and the CFEs](#).
- There are two new optional retired exam cases, Golf Practice Paradise Ltd. and Plants for the Planet Inc. These have been assigned in Units 1 and 2. All units now have optional retired exam cases.
- References to “templates” were replaced with the term “approaches” throughout the webinars and workshops. The use of templates is not encouraged but using consistent approaches for different topics (such as the IAR approach) is supported.
- A “Learning Resources” link has been added to the D2L toolbar to provide direct access to the module-specific technical review. As a reminder, the technical review hosts the CPA Canada Learning Library eBooks and practice multiple-choice questions.
